Challenge:

Intelligent Solution:

THEFT

- Area-controlled security helps protect against both external and internal theft by securing some areas while others are occupied.

ROBBERY

- Our state-of-the-art HSM Customer Service Center provides reliable and prompt response to alarm conditions to help reduce the risks associated with a hold-up.

UNAUTHORIZED ACCESS

- Our HSM Access Control Systems help you manage people and vehicle access to your location.
- We help you protect people, property and company information without inconveniencing your employees or disrupting your business.

FIRE THREAT

- Our HSM Automatic Fire Alarm System is code compliant. It provides rapid, reliable and early notification to protect life and property.

REMOTE SURVEILLANCE

- When resources are limited, our HSM Video Surveillance can help you keep an eye on your facility and remotely authorize or deny access.

RESPONSE TIMES

- Our state-of-the-art HSM 24-hour UL Monitoring Center provides reliable and prompt response to alarm conditions.

MULTIPLE LOCATIONS

- We establish a program that matches your company's needs on a regional or national basis.
- We provide the knowledge and consistency you need to make informed security decisions.

LIMITED SECURITY STAFF

- HSM Security Supervisor can provide single point management for all your security needs.
- Your security staff can cover a large area efficiently because multiple sites can be observed from a single monitoring location.
- Your team can perform surveillance work efficiently and economically.

CRITICAL EQUIPMENT

- You are alerted immediately if an important piece of equipment breaks down.
- Sensors alert HSM, which in turn notifies you before problems become costly.

FACILITY MANAGEMENT

- Our HSM eDataManager allows easy access to all alarm data from your desk to help you manage your security more efficiently.
- Confirmation of facility open/close on time.

eDATAMANAGER

- We keep you in the loop at all times with eDataManager, a Web-enabled tool that provides real-time access and control of your security system information.
- With just a mouse click, you can access real-time information on your incidents, service, opens and closes, alarms, contacts, zones and fire tests.
